Active Learning for Drug Selection on Identified Target Protein

Christine Baek   Qi Chu

christib@andrew.cmu.edu   qchu@andrew.cmu.edu

1 INTRODUCTION

TODO: fill in intro

2 METHODS

2.1 ACTIVE LEARNING STRATEGY

TODO: DHM

- why chosen
- any modifications/source?

2.2 CLASSIFIER STRATEGY

TODO: SVM

- why chosen
- any modifications/source?

3 RESULTS

3.1 EASY

TODO: Test error curve, f1 score curve, test error/calls to oracle curve

3.2 Moderate

TODO: Test error curve, f1 score curve, test error/calls to oracle curve

3.3 Difficult

TODO: Test error curve, f1 score curve, test error/calls to oracle curve
